Dear Sir:

Applicants hereby request that the above-captioned application be revived. Applicants believe that this application is currently abandoned for failure of Applicants to timely respond to a Notice to File Corrected Application Papers dated May 22, 2002. However, Applicants never received the original Notice, and were not made aware of the Notice until October 16, 2003. Thus, the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional.

Since October 2002, Applicants made repeated attempts to obtain status from the USPTO on an outstanding Petition to Make Special filed in connection with this application. Applicants contacted the USPTO Technology Center in October and November 2002 and learned that the Petition was pending, but were never apprized of the outstanding Notice. Applicants made

I hereby certify that this paper (along with any referred to as being attached hereto) is being deposited with the United States Postal Service on the date shown below with sufficient postage as First Class Mail in an envelope addressed to Mail Stop Petitions, Commissioner for Patents, P.O. further status requests in March, April, and May of 2003, and were informed on each occasion that the Petition to Make Special was still pending. Despite these status requests, Applicants were not made aware of the outstanding Notice until, in response to another status inquiry, the USPTO provided a facsimile copy on October 16, 2003, almost 17 months after the original mailing date. In a November 13, 2003 phone conference with Preston Wallace of the OIPE, Applicants were advised that the status of this application is uncertain, due in part to the outstanding Petition to Make Special. Mr. Wallace further advised Applicants to file this petition under 37 CFR §1.137.

In view of the above, Applicants maintain that the entire delay in filing a response to the outstanding Notice was unintentional, and therefore respectfully request that this petition be granted. In papers submitted with this petition, Applicants have responded to the outstanding Notice by providing substitute drawings to correct informalities in the application as filed.

The U.S. Patent and Trademark Office is hereby authorized to charge a fee of \$665.00 required under 37 CFR §1.17(m), as well as any fee deficiency, to our Deposit Account No. 08-3038, referencing Docket No. 04813.0013.NPUS00.
